

Wednesday Security Meeting  
10:00 a.m.

Clear evidence that construction & concealment have continued at MRBM sites in Cuba since Oct. 27. Our photography precludes positive assessment of construction activity. We note considerable increase in Operational Radar. We should try to get Kuznetsov to recommend removal of Sam sites. He wouldn't want us to get this technical information. McCone says he had intuition feeling NIE Sept. 21st says Russia

Rusk

Says postpone until Friday - Pictures will be available. Rusk says we must (Thurs. a.m.) fly high & low level photographs. If Castro does not agree to Red Cross quarantine must go back on. Pres. We will wait until later today to decide (1) reconnaissance or (2) quarantine. Rusk suggests cable to all free world countries to say to Castro we 'free world' will break relations unless you cooperate with U.N.
